- Asphalt Milling
- Storm Drainage Improvements
- Granular Base Construction
- Misc. Concrete Works including Construction of complete Bus Pads.
- Asphalt Paving
- Landscaping Improvements
- Roadway Lighting , Signalization and Signage

Description:

All Roads is proud to be a part of the first steps toward faster, more reliable bus service for the 41st Avenue corridor in Vancouver. Once in service, TransLink’s new high-frequency, limited-stop B-Line service will run from Joyce–Collingwood SkyTrain Station to UBC all day, every day. The new 41st Avenue B-Line will run every 3-6 minutes during rush hour with the capacity to carry up to 4,400 people, adding much needed people-moving capacity to this busy arterial.

Team Members:

• Denis Labelle - Construction Manager
• Greg Regier - Estimating Manager
• Ryan Henderson - Project Manager
• Max Spedding - General Paving Superintendent
